

## **Direct TV**

**If you are a Direct TV Subscriber Direct TV “says” that they carry and Broadcast any and all of the TV Stations Signals that are sent to them. If you are a Direct TV Subscriber and you choose channel 17 it should say 17-1 and 17-2 however even if you choose 17-2 on the nights and times that we air games you will not see the games. Why? Because while they say that they Broadcast 17-2 they are not so all you as a Subscriber to Direct TV has to do is contact Direct TV and request that they carry 17-2.**

## **Dish Network**

**If you are a Dish Network Subscriber you are paying \$5.00 per Month for “Local Channels” however Dish Network sells an Antenna that connects to your Dish Network Receiver that will allow you to receive ALL of the Local Channels including the Secondary Digital Channels. The Antenna is only \$29.95 and the BEST part is once you buy it you will no longer have to pay the \$5.00 per Month for the “Local Channels” so it will pay for itself after Six Months!**

## **Comcast**

**If you are a Comcast Digital Subscriber then you could get 17-2 IF Comcast would carry it. To find out if you are a Comcast Digital Subscriber just go to Channel 200 by using your Comcast Box if you see WTLV’s secondary Digital Channel “NBC’s Universal Sports” then you are a Comcast Digital Subscriber.**

**As a Comcast Digital Subscriber you are SUPPOSED to get ALL of the secondary “Digital Channels” THAT is why they call it Comcast “Digital”. You will get WTLV Channel 12’s secondary Channel 200, WJXX Channel 25’s secondary Channel 201, WAWS Channel 30’s secondary Channel 206, WJCT Channel 7’s secondary Channels 210, 211, 212 and WJXT Channel 4’s secondary Channel 229. These are ALL Local Secondary Digital Channels. CBS 47 is NOT listed because they do NOT have a secondary Digital Channel. The ONLY Local Channel that is NOT listed that HAS a secondary Digital Channel is WCWJ CW17-2. In fact Comcast Channel 12 is WPXC which is a PAX / ION Station that is located in Brunswick Georgia so Comcast will carry a Brunswick Georgia Station but won’t carry a Local Station???**

**All you have to do is call Comcast (904) 374-8000 and tell them that you are a Comcast Digital Subscriber and you want them to carry WCWJ CW17-2 because it is a Local Digital Channel and you are a Comcast Digital Subscriber and are paying to see it. You can also add that both Direct TV and Dish Network carry it and because you are a paying Comcast Digital Subscriber you want Comcast to carry it as well.**
